

PREMIUM INTERNET PLANS

FOR

You

**SATSOL**
Connecting *you* is what we do

Speed up your business

Premium Plans provide Dedicated Internet Access (DIA) – reliable high-speed service with optional satellite backup.

You won't share bandwidth; allowing you to make the most of cloud-based apps, link locations easily, video conference seamlessly and exchange large files without hassle.

Corporate-class 24-hour support and bandwidth redundancy empower you with the ultimate reliability backed by service-level agreements (SLAs) for uptime.

Extra peace of mind

Time lost due to lack of internet can be hard to make up, not to mention the missed deadlines and delayed decisions. Get uninterrupted Internet - whatever happens!

Stay connected with international partners, join video conferences, and share documents for a presentation with our dedicated backup solutions.

Add a satellite backup to your dedicated Internet connection.

In the event of an outage to the main Fiber connection, VSAT will automatically pick up the slack. Invaluable if the outage is caused by physical damage to the undersea cable that could take time to repair - time your organisation may not be able to afford.
