Key features

Fair Usage Policy

FUP prevents abuse of the network and allows all users to have fair access to high speed Internet during peak hours (8am – 8pm) when Internet usage is at its highest.

If you reach your data allowance limit during peak hours, the JET speed is reduced to the base speed. You can get back up to full speed by paying to reset your data allowance at <https://billing.satsol.net>.

Free zone

Outside peak hours, it's a FREE Zone when data usage is not monitored or controlled and the Internet is always at JET speeds.

Prepaid

JET plans are strictly prepaid, self-care plans with minimal additional features, which helps keep prices low.

Account transparency

You have full transparency of your account (speeds, data usage, transaction history etc) at any time by logging into the customer portal <https://billing.satsol.net>.

Free install for 12-month contracts

Install is usually \$1,000 SBD. SATSOL retains ownership of the equipment – so we can upgrade you at any time at no extra cost.

Free Wi-Fi router

Free Gold TV package

Sign up, or upgrade your existing account to JET 4+ or JET X+ and you'll be able to access all 35 channels available for free!

* during peak time; speed will be reduced to base speed when data allowance is used.

** during night time from 8pm to 8am.

†Prices shown exclude sales tax.

JET STREAM

***Convenient and
fast Fiber-based
data plans***

SATSOL
Connecting *you* is what we do

With speeds of up to **20Mbps**, **JETSTREAM** is the ideal way to access the Internet when you need to without the hassle of a monthly contract

JETSTREAM

- Download speed up to **20 Mbps**
- Top-ups **10-200 GB**
- Data expires **3 months**

\$0 SBD/MO*

Buy data packs to stay topped up and use as much or as little as you like

JETSTREAM Data Top-ups
